

**11:30 & 3:30 Daily!**

Join John Greviskis and the crew of Ship Shape TV Live here at the Boat Show. John is, hands down, The Most Popular figure in boating today, with millions each week tuning in, via 10 different television networks. His ability to relate to the boat owner is unparalleled, and his enthusiasm is contagious. John Greviskis cares about the boat owner... and that compassion carries over into every project that the show takes on.

Just ask the media. Some of the Nation's most respected publications and organizations, like the Chicago Tribune, The Sun Sentinel, and Boat/U.S. refer to John as "the Norm Abram of the sea."

Ship Shape TV is a half hour BOAT IMPROVEMENT "how-to" television series, similar in format to some of today's most successful "Home Improvement" TV shows. But this is NO home or building that's being restored or beautified... The ACTION takes place on some of today's more popular Pleasure Boats.

Each week, Ship Shape TV teaches viewers how-to accessorize their boats, how-to make improvements and how-to make repairs to their boats. Viewers even learn about regular maintenance procedures, ranging from simple cleaning tips, to taking care of bilge pumps.

Subjects being covered here at the show are: Hatches, Propellers, Dive Tank Racks, Outboard props and a segment on taking a popular every day product and turning it into a safety product. We invite you to "Climb Aboard" with us in order to see what the crew at Ship Shape TV has to offer here during the boat show!

*"Be A Winner With C&H!"*

**Thurs & Fri 1 & 3 pm**
